The City Clerk laid before the Board the following communication from his Honor the Mayor filed in the City Clerk's office on the 10th inst. and the same was read, received and ordered to be entered in the minutes.

MAYOR'S OFFICE, CITY HALL,
JERSEY CITY, N. J. June 10, 1889.

To the Board of Aldermen:

GENTLEMEN—Your Board passed a resolution which was presented to me for signature on May 31, granting a license to Thomas Bray to keep a restaurant at 585 Jersey avenue, upon the payment of the minimum fee fixed by law. On looking into the matter I am satisfied that the course recently pursued by your Board in granting these licenses by resolution instead of under an ordinance fixing the amount of the fee is illegal. It has been the general impression in regard to Senate Bill No. 149, commonly called the Wertz bill passed by the last Legislature that sixty days time was allowed in that law to enable municipalities and persons to prepare for its enforcement and that idea grew out of a hasty reading of the second section of the bill I have no doubt. By a careful reading of the section it will be found to refer to only one class of persons to be licensed, but the sixty days have now expired, and I respectfully decline to sign any more licenses granted by resolution only. The law requires that they shall be granted under the provisions of an ordinance that shall, amongst other provisions, fix the fee, and for cities like this the fee cannot be less than $250 in each case. You are respectfully recommended to pass such an ordinance at the earliest day possible. The resolution granting the license to Bray is returned without signature, and I have had less hesitation in doing so because the residents in the neighborhood have entered a vigorous protest against granting him any license at all.

The delay in waiting for an ordinance will give your honorable body an opportunity to consider the matter carefully before granting it.

Very respectfully,
Your obedient servant,
ORESTES CLEVELAND.

By Alderman O'Neill and unanimously adopted:

Whereas, God in his infinite wisdom has removed from our midst the spirit of our beloved and honored fellow citizen, Augustus A. Hardenbergh.

Resolved, That in his death we recognize the loss of one who adorned the walks of life by honest sturdy devotion to his country, his state, the city of his adoption and his fellow men; scorning all things dishonorable, seeking ever to elevate, his aim was always to encourage every laudable effort which might result in good to humanity. As a member of Congress his labors were always directed to every honest measure; as a member of the Legislature he advocated what was just and unhesitatingly condemned that which was bad. As a member of the Board of Aldermen, he done his whole duty carefully and discreetly, managing the finances of the city in its infancy, he was one of the first Board to occupy this chamber, and though then young in years he was old in wisdom, and managed the financial affairs of the city through some of the trying years of the war. As a member of the Board of Finance and Taxation, his knowledge of finance, his sterling integrity, his sagacity in the midst of most perplexing circumstances, saved the credit of the city from disaster and financial ruin. Much is due to him, yet words are all that is left us to express our loss.

Resolved, That we deeply sympathize with his family and to them we offer sincere condolence in their affliction.

Resolved, That this Board will attend the funeral in a body and we order the flag displayed at half mast from the City Hall, on the day of the funeral.

Resolved, That a copy of these resolutions be transmitted to the family by the City Clerk.

MISCELLANEOUS BUSINESS.

The following preamble and resolution were offered by Alderman O'Neill and adopted:

Whereas, Every precaution should be taken to insure safety at railroad crossings.

Resolved, That the Pennsylvania Railroad Company be requested to devise and put in operation some plan whereby flagmen at the Newark avenue and other crossings of said road, may have notice when trains are with in three hundred feet of the crossing.

The following preamble and resolutions were presented by Alderman O'Neill:

Whereas, Persistent efforts have been made for several years past to foist an almost unprecedented scheme upon the city by parties who desire to obtain control of Jersey City's water works, including the rights now held by the city, of a perpetual supply of pure and wholesome water from the Passaic river; and

Whereas, The opinions of some of the leading citizens and the drift of public sentiment is manifestly against the proposed transfer of the city's water works and water rights to any private parties whomsoever, and

Whereas, It is eminently fitting that this Board of Aldermen should protest against the consummation of any such scheme as the one now agitated by the so-called Bartlett Syndicate, who are egged on by those willing, for their personal ends, to work grievous injustice upon their fellow-citizens, and to injure the credit of the city; therefore be it.

Resolved, That we, the members of the Board of Aldermen of Jersey City do hereby

enter our solemn protest against the outrageous swindle proposed by the Water Syndicate, and its horde of lobbyists and advance agents.

Resolved, That we, the members of the Board of Aldermen, do hereby publicly appeal to the various city officials having jurisdiction in the premises, to promptly set the seal of their official disapproval upon any proposition tending in any way to relinquish any portion of the city's control of the water works, or the rights of the Passaic river, ceded by the State of New Jersey to this city.

Resolved, That we, the members of this Board, hereby declare our belief that the quality of our water supply (which now affords the chief pretext for the syndicate seeking to involve the city into a contract for a new supply) can be greatly improved at a comparatively slight expense, and that efforts should be made in this d rection, if for no other purpose than to allay the unnecessary suspicion aroused by the clever manipulations of the water syndicate and its agents.

Resolved, That this Board urgently recommend to the Honorable Board of Street and Water Commissioners, that if, after due investigation, it is found necessary to improve the quality of the city's water supply, that efforts be made to secure such improvement by means already at hand, including:

1. The enlargement of the Belleville intake at a cost not to exceed fifty thousand dollars ($50,000), to afford free passage for a larger volume of water than can now be accommodated in the sluiceway constructed over thirty years ago to supply about fifty thousand population.

This improvement would prevent the soiling of the water with every stroke of the pumps as at present, and would greatly improve the appearance at least of the water furnished our citizens.

2. By the aeration of the water supply of the city, after it reaches the retaining reservoirs and before its delivery to the inhabitants of our city.

3. By a reference of the entire subject to competent and disinterested experts for advice.

Resolved, That the attention of said Street and Water Commissioners be also called to the following facts, each of which should have weight in preventing the consummation of the proposed contract with the water syndicate.

First—The vast outlay already incurred by Jersey City in securing the present water supply, including the expensive pumping plants at Belleville and at the High Service pumping stations.

Second—The fact that the income of the Water Department is to-day insufficient to pay the interest upon the city's water bonds.

Third—The fact that the water syndicate, while pretending to furnish water, under the proposed contract, at present rates, really intends to throw a heavy additional burden upon the city at large.

Fourth—That the proposed contract, if once fastened upon the city, would probably remain and continue, as when its term expired the present pumping plants would probably be in ruins, and the city would be unable to renew them, except at a ruinous outlay.

Resolved, That for these reasons and many others not stated the Honorable Board of Street and Water Commissioners be again urged to refuse to accede to the wishes of the water syndicate, and by so doing forever set at rest those now fearful of the financial effect of any such contract and for the good of the city at large.

Resolved, That the Honorable Board of Finance, who are by the charter trusted with the care and management of the city's finances, be also urged not to concur in any action tending to further the plans of the water syndicate or to continue the harmful agitation of its agents.

Resolved, That this Board also respectfully appeal to his Honor, Mayor Orestes Cleveland, to decline to sanction or approve any official resolutions, passed by any municipal Board of Jersey City, in favor of said proposed contract.

Resolved, That these resolutions be spread in full upon the minutes, and that certified copies be served by the City Clerk upon his Honor the Mayor, the Board of Finance and the Honorable Board of Street and Water Commissioners.

OFFICERS COMMUNICATIONS.

The City Clerk laid before the Board the following communication from the Mayor, filed in the City Clerk's office, October 30, 1889, and the same was read, received and ordered to be entered in the minutes:

MAYOR'S OFFICE, CITY HALL,
JERSEY CITY, October 29, 1889.

To the Board of Aldermen:

GENTLEMEN—An ordinance passed by your Board entitled "An ordinance to authorize the Bergen Electric Light, Heat and Power Company to erect poles, &c.," is herewith returned with objections.

By the first condition of section 3, the company is authorized to lay pipes or conduits; within six inches of the surface of the streets.

This provision is fatal because we could not pave over such pipes or conduits. More than six inches are needed for the stones themselves without any allowance for sand under them, and if the city laid stone blocks upon such pipes, resting on them as they would have to rest, the pipes would be broken at once by heavy teams driving over them. I am aware that a representative of the company has said that he would see that they were laid deeper so as to avoid the objection, but ordinances cannot safely be adopted containing such objectionable provisions simply because the company or its agents assert that they will not take advantage of them.

For this reason I cannot sign the ordinance. It was undoubtedly an oversight on the part of your honorable body in passing it. Very respectfully,

ORESTES CLEVELAND.

The following report was presented by Alderman O'Neill, Chairman of the Committee on Streets, and the same was received, adopted and on motion of the same Alderman ordered to be entered in the minutes and a copy sent to the Secretary of the Board of Trade of Jersey City.

Honorable Board of Aldermen:

Your Committee on Streets to whom was referred, December 23, 1889, the communication from the Jersey City Board of Trade, respectfully report that the first subject matter the condition of the sewers in the Harsimus Cove District is a matter over which the Board of Street and Water Commissioners have control and is now being attended to, the second subject danger from electric wires, &c., is a matter over which your Honorable Body have control and which is being carefully considered, the third subject the pollution of the Passaic water by the sewerage from the city of Passaic is a very serious matter and is at present engaging the serious consideration of all concerned, grave apprehensions exist that some action hurtful to the interests of the city may be had which while ostensibly intended to give to our people a better water supply, may result in binding the city to the terms of a contract which will place our people at the mercy of a private corporation and render worthless, perishable property costing millions of dollars to the taxpayers, and this is possible without corresponding benefit, when reflection shows that the waters of the Passaic coming from springs and from the skies is the same sort of water syndicates now claim to own and control.

Experience teaches that running water, no matter what contaminates it, will purify itself in three or four miles.

Many of the largest most popular sections of the country depends entirely on river water for drinking and other purposes, but fortunately for such sections water syndicates do not exist in their midst. It is possible for Jersey City at a reasonable expense to either enlarge the intake, at Belleville or to build a conduit about two miles along the river and thus do away with one of the principal reasons urged by the friends of the new system that the sewage of Newark and Passaic is mixed with and contaminates the water.

Every good citizen will favor any scheme that will improve the water, if necessary, provided the property of the city is not damaged or destroyed, and provided the city controls in all things connected with a water supply.

Respectfully submitted,

P. H. O'NEILL,

of Committee on Streets.

DEAR SIR—The resolution of the Board of Aldermen of Jersey City, requesting that the name of the station on the Pennsylvania Railroad known as "Marion" should be changed to "Tonnele Avenue" was duly received There would not be so much objection to this if it were simply a passenger station. You are propably aware that we have a freight delivery in that locality, and to change the name as requested, would render it liable that freight for that point would be diverted from its proper destination.

Respectfully yours,
F. WOLCOTT JACKSON,
General Superintendent

OFFICERS COMMUNICATIONS.

The following opinion was presented, received and ordered filed:

JERSEY CITY, March 18, 1890.

Hon. Board of Aldermen, of Jersey City:

SIRS—I have received from Aldermen O'Neill and O'Rourke, a communication in which they request an answer to your Board to the following questions:

(1) "Whether the officers of Election appointed by the Board of Aldermen for service at the general election of November 5, 1889, continue in force until after the next charter election."

Answer—"Yes, the election officers appointed in October last by your Board to fill vacancies, continue in office until the election of their successors, your Board may however remove any election officer for good cause."

(2) "Whether the Board of Aldermen can legally designate by resolution in which precinct said officers shall serve at the Charter Election, the precincts being numbered differently from the Fall Election."

Answer—"If the boundary lines of the election precincts have not been changed the election officers chosen by your Board will hold over, but an election officer chosen to fill a vacancy on the morning of the election, only holds office for that particular day. The facts that the election precincts are numbered differently makes no difference whatever provided the boundaries have not been changed under section three of a supplement of the act to regulate elections, approved April 28, 1885, (laws 1885 page 296) it is provided "That when any new election district or districts shall be set off or the boundary lines of any existing district or districts shall be changed or such districts readjusted, the Inspectors, Judges and Clerks of election who shall reside in such new district or districts or in the district or districts affected by such district change or readjustment shall forwith cease to hold office." Whereupon your Board must appoint election officers for said districts who shall be residents of and entitled to vote in the districts in which they are appointed to act: one of the Inspectors in each district shall be selected from each of the two political parties casting the greater number of votes at the last preceding election.

You will find this act on page 87 of the election act as prepared by the Secretary of State.

Yours respectfully,
WM. D. EDWARDS,
Corporation Counsel.
